## Disclosure Statement

Past performance may not be indicative of future results. The above individual account performance information reflects the reinvestment of dividends and is gross of advisory fees unless otherwise noted. FORVIS Private Client has retained a third-party provider, Envestnet/Tamarac, to provide performance reporting. Envestnet/ Tamarac may compile and distribute aggregated data that has been de-identified. This report does not reflect the impact of taxes on nonqualified accounts. Information for this report was provided by the account custodian. Please defer to formal tax documents received from the account custodian for cost basis and tax reporting purposes. For tax advice, please consult your CPA or tax professional. FORVIS Private Client services may include investment advisory services provided by FORVIS Wealth Advisors, an SEC-registered investment adviser and/or accounting, tax and related solutions provided by **FORVIS, LLP**.

Account returns are reduced by advisory fees which the client incurs in the management of the client's account. For example, the deduction of a 1% advisory fee from a client account over a 10-year period would reduce a 10% gross return to an 8.9% net return. Other expenses, such as transaction fees and account expenses, are not reflected in the performance data provided and would, correspondingly, reduce a client's returns. Fees are described in disclosure statement Form ADV Part 2A.

Please remember to contact FORVIS Private Client **in writing**, if there are any changes in your personal/financial situation or investment objectives for the purpose of reviewing/evaluating/revising our previous recommendations and/or services, or if you want to impose, add or modify any reasonable restrictions to our investment advisory services. **Please note:** Unless you advise, in writing, to the contrary, we will assume there are no restrictions on our services, other than to manage the account in accordance with your designated investment objective. **Please also note:** Please compare this statement with account statements received from the account custodian. The account custodian does not verify the accuracy of the advisory fee calculation. Please advise us if you have not been receiving monthly statements from the account custodian. A copy of our current written disclosure statement discussing our advisory services and fees continues to remain available upon request.

Historical performance results for investment indices and/or categories have been provided for general comparison purposes only and generally do not reflect the deduction of transaction and/or custodial charges, the deduction of an investment management fee or the impact of taxes, the incurrence of which would have the effect of decreasing historical performance results. It should not be assumed your account holdings correspond directly to any comparative indices.

As of March 31, 2017, any REIT holdings will be classified as U.S. Equity. Historically these have been classified as alternative investments. Historical performance of these asset classes may reflect the asset classification change.

**To the extent applicable, please note:** Restricted/unmanaged assets – FORVIS Private Client **does not** maintain any investment monitoring or performance responsibility for assets and/or accounts designated as unmanaged or restricted. The client and/or its other investment professionals retain exclusive responsibility for the monitoring and performance of such assets and/or accounts.

### **Index Definitions**

CPI – Seasonally Adjusted – the consumer price index is a commonly used measure of inflation

S&P 500 Composite – represents the large-cap U.S. stock market and comprises the largest 500 companies weighted by market cap

S&P 400 Mid-Cap – represents the mid-cap U.S. stock market and comprises the next 400 companies by market cap beneath the S&P 500, weighted by market cap

Russell 2000 – represents the small-cap U.S. stock market and comprises 2000 companies on the U.S. stock exchanges weighted by market cap

MSCI EAFE Net – represents the large-cap and mid-cap stock market across developed market countries, excluding the U.S. and Canada

MSCI Emerging Markets (EM) Net – represents the large-cap and mid-cap stock market across 23 emerging market countries

Bloomberg Barclays U.S. Aggregate – represents the U.S. investment grade bond market

Bloomberg Barclays Municipal Bond – represents the U.S. dollar denominated long-term tax-exempt bond market

Wilshire Liquid Alternative Index – broad measure of the liquid alternatives market, combining performance of five strategy types: hedged equity, global macro, relative value, multi-strategy and event driven
