the ubiquitous rural challenge.

- lack of financial resources
- limited programming capacity
- limited active local leadership
- lacking factual understanding of local community and economics dynamics
- limited understanding economic and community development principles
- limited strategic planning capabilities
- lacking a common framework to enable civic collaboration and inspire collective impact
further exacerbating circumstances.

- rapid population decline
- rapidly aging population
- shrinking economic base
- shrinking program services

how do we move these metrics at scale?

By having communities spend more time actively executing programs.

By packaging the programs in bite size units that can be rapidly implemented.
Change is difficult. However, through a thoughtful and deliberate approach, we can dramatically ease the journey for our rural communities.

**USDA - Higher Education Challenge**

**Deadline: March 23, 2020**

Description: Projects supported by the Higher Education Challenge Grants Program will: (1) address a state, regional, national, or international educational need; (2) involve a creative or non-traditional approach toward addressing that need that can serve as a model to others; (3) encourage and facilitate better working relationships in the university science and education community, as well as between universities and the private sector, to enhance program quality and supplement available resources; and (4) result in benefits that will likely transcend the project duration and USDA support.

NIFA requests applications for the Higher Education Challenge (HEC) Grants Program for fiscal years (FYs) 2020 and 2021 to enable colleges and universities to provide the quality of education necessary to produce baccalaureate or higher degree level graduates capable of strengthening the nation’s food and agricultural scientific and professional workforce.

Competitive grants to strengthen institutional capacities to respond to identified state, regional, national or international educational needs to formulate and administer programs to enhance college and university teaching in agriculture, natural resources, forestry, veterinary medicine, and family and consumer sciences., disciplines closely allied to the food and agricultural system, and rural economic, community and business development.

**Award Range:** $30,000-$750,000
